

Superfast Broadband has arrived at an additional cabinet in Nuffield. The cabinet on Timbers Lane has now been enabled for super fast broadband. Please see attached for more information and see below if you might be interested in being a Better Broadband case study.

Regards  
Nuffield Parish Council

---

We are always on the lookout for case studies to add to our website, so please do let me know / provide my details if you are aware of anyone who may be interested. I would then contact the individual in three months' time to understand their experience of making the upgrade and ask how fibre broadband has benefited them. The process would just require answering a short questionnaire, which I would use to produce a draft for their approval before publication onto our website:

<http://www.betterbroadbandoxfordshire.org.uk/cms/case-studies>

There are a variety of categories we use:

- Family
- Working from home
- Business owner
- Silver surfer
- Broadband champion
- Small / medium size business / farm

I hope this information is useful. If you have any further queries, then please do contact me using my details below.

Kind regards

**Tamar Bowley**
